Troops Are Scattered In All **Directions as Result of First** Battle with the Rebels

PRESIDIO, Texas Dec. 29.-The northern division of the Mexican federal army apparently was utterly demoralized tonight.

With its dead and wounded stretched over the hills and some of its soldiers fleeing in a panic across the United States border only to be pushed back again the 4,000 federals who had made a dramatic retreat from Chihuahua to Ojinaga, the little Mexican village opposite here were scattered in all directions as a result of their first battle with the rebels.

Various reports were received by Major McNamee that bands of federals ranging from a dozen to several hundred had crossed and cavalry has been sent to search for and surround them.

The reports from across the river were that General Orozco and General Ynez Salazar, commanding volunteers made desperate efforts to keep the army intact, standing with drawn revolvers to shoot any soldiers

who mutinied. General Salvador Mercado, who was relieved of command in favor of Castro and who appeared on the Mexican side after he had been reported to have crossed the river, was

in Ojinaga. Fighting south of Ojinaga ceased about 10 o'clock tonight after it had been in progress several hours.

#### WILL NOT LOWER LIVING COST

WASHINGTON, Dec. 29-Ten billion dollars worth of products, five billion dollars of cash incomea bumper year in spite of droughts and other setbacks-is the 1913 rehusbandry in the United States Tinker appeared jubilant, but was brought forth \$6,100,000,000 worth of crops of which \$2,896,000,000 were represented by cereals alone \$3,650,000,000 worth of animals sold

The value of the 1913 crops is twice as great as that of 1899; more than a billion dollars over 1909 and substantially greater than 1912. Of all the crops, however, it is estimated that 52 per cent will remain on farms where they were produced and that 20 per cent of the animal production will remain. On that bass the cash income is estimated by the department of agriculture at

\$5,847,000,000. Will Not Lower Living Cost. But despite a record year of crop value-although the number farms has increased over 1912, the department in a discussion of the subject made public today, does not take the view that a lower cost of living will follow as a consequence.

"The long line of distributors and middlemen between the farmer and the consumer are in a position to take advantage of the market and to a certain extent control the market in both directions because they are better organized to keep informed of crop and market conditions and to act more promptly than either farmers or consumers who are not organized and as individuals are help-

RESERVE BANK RE-ORGANIZATION COMMITTEE CHANGES PLANS

Body Will Meet in New York January 5 and Will Sit in Boston January 9 and 10.

Washington, Dec. 29 .- The reserve bank reorganization committee tonight announced a change in its plans for holding public hearings in New York and Boston. It had planned to sit two doys in New York, beginning January 2, then in Boston for two days and to return to New York, for 48 hours' more work.

According to the new plan the committee will meet in New York Jan. 5, and sit there until the night of the 8th. It will sit at Boston Jan. 9 and 10, and return from Boston to Washington. The trip to the west will not be changed, according to the announcement. The change in plans was made on account of the illness of Secretary of the Treasurer McAdoo. 'Although he shows steady improvement, Surgeon Gen eral Rupert Blue, of the public health service, advised a complete rest of five days before the secre tary takes up the strenuous days of the public hearings.

Mr. McAdoo will spend the rest of this week in the country and will return to Washington Sunday so that he can get to New York Monday morning. During his absence from Washington Secretary of Agriculture Houston, the other member of the committee, will take no action.

MAY AVERT STRIKE.

St. Louis, Mo., Dec. 29.-There will be no strike of telegraphers on the St. Louis & San Francisco railroad according to indications tonight and the strike committee of the Order of Railway Telegraphers will meet ther eceivers of the railroad again tomororw in an attempt to reach an agreement.

Conferences that morning centinued with one intermission until late this evening and agreement would be reached.

The loaves displayed were baked from twenty-two brands in addition to Zephyr, some of the best known and most advertised brands on the market today like Seal of Minnesota, Gold Medal, Pillsbury, Ceresota, Occident, Aristos and Snow White. It was easily shown that Zephyr flour had no equal among them.

### LITTLE ARGENTINE

BEEF COMING. (From Breeders Gazette.) A cargo of Argentine beef direct from the River Plate is due to reach New York this week, but for two weeks past only a few dribs arived from London and none has een loaded at Buenos Aires during that period. The shipment due this week is said to aggregate 1.700 tons out inquiry here elicits the information that it is frozen beef which will not necessarily be crowded on the market. Speculators are bringing most of the South American and Australian childed beef over from London and are anxious to unload before it "goes bad." It has been lling 1 at 2 cents per pound under the domestic article, but this price concession rarely reaches the consumer. Considerable difference of opinion exists as to quality of imported beef, but most of it is be ing handled by "chain stores" and its identity is carefully concealed in

the selling performance. Wool Now Free. Raw wools went on the free list Dec. 1. Just what effect this is to have upon the price of sheep, weel and woolen goods in this country remains to be seen. Australian flock-owners are naturally jubilant. They expect now to get more for their clips. They may find, her parents, Dr. and Mrs. C. C. however, that most of the clamor of certain Australian Manufacturers of woolens for a chance to import the heavy-shrinking fine-wools was for the purpose of enabling them to ouy "tags" or "locks", "bellies" and the sweepings of the fine-wool clip generally, rather than the straight 'skirted" fleeces of that grade. This s about what they did under the Wilson bill at any rate, ard in that case the heavy Merinos of the south may not advance much as some people have anticipated. In any event is unlikely that American buyers of woolen and worsted fabrics will ever see much of the reductions made in the duties of Schedule K. in so far as prices at retail are concerned. Between the manufacturer, the importer, the jobber and the retailer, the tariff reductions will practically absorbed before the goods get as far as the ultimate consumer. At least that is the probable out-

For the sake of popularity and getting monserved and the guests departed at a ey and having a "best seller" a writlate hour with recollections of an er is prefectly willing to trifle with the most sacred things, ridiculing them as utterly foolish and out or date, and thus destroying the faiti of unreflecting souls, their vision their hope and all their outlook for the future. If the world were all, no matter how big, it is nothing more than a cage for human beings Mr. Churchill condemns men to b as dogs or insects, without outlook False Pictures of Heaven.

Speaking specifically, the preach er gave a withering review of page 60 of the book, in which Heaven. the New Jerusalem, was pictured as merely insipid and material. Speaking of the modern idea that the Bible is very much out of date and that the figures of Saint John in Revelation are all archaic and absurd, he said that Heaven with wingfees and plaintiff and defendant ed angels traversing it was very much up-to-date in this age of the reroplane. To be sure there are no angels like those on the Christmas card, which are creations of pure fancy, but neither are there such creatures found in the bible. They are beings of overmastering strength who can roll away rocks and pects to have something of a family put a strong man "out of commisreunion at her beautiful home at the sion" any time. Rev. Mr. Nect went on ot show the permanent ideas of Heaven as they were so was placed before us as the City of Light. Does Mr. Churchill think that the men and women of our time are oxen with no appreciation 'Tis just man shall live of beauty? by his faith.' If there is no more faith, there is no more life. And no enemy of our life in common iso malignant and harmful as he who trifles with sacred things and exploits souls for so much per sele. What shall it profit a man if he gain the whole world and lose his own soul? Or what shall a man give in exchange for his soul? Those who offend against the souls of others are Heaven's 'high offenders.'

Gets Low Prices For Large Crop. 'If the farmer gets a high price, perhaps a very high price per bushel or other unit of quanity in case of a crop of low production on the other hand he usually gets low prices for the crops which he produces in abundance. The low price of fourteen principal crops average about 20.2 per cent higher than a year ago and 4.6 per cent higher than two years ago. Their total values average about 3.8 per cent higher than a year ago and 7.6 per cent higher

than two years ago. "In these days of high prices of food it seems to be overlooked that the farmers of this country are producing enormous surpluses for export to foreign countries. are higher in other countries as well as in this one.

'The value of the agriculture exports of domestic production in the fiscal year 1913 was \$1,123,021,469, an amount which has not before been equalled.

"The re-exports otherwise called the exports of foreign agricultural products are estimated at \$12,000, 000. The so-called balance of trade in agricultural products is in favor of the exports of domestic farm products by 296,000,000.

"During the fiscal year of 1913 over 166,000,000 pounds of beef and its products were exported but this quantity included only somewhat more than 7,000,000 pounds of fresh beef. The quantity of exports of beef and its products has rapidly declined from 733,000,000 pounds in 1906. The exports of pork and its products in 1913 amounted to 964,-000,000 pounds, a quantity that is exceeded by the average for the preceding 23 years and with three exceptions by the exports of each one of these years.

Farm Wages Increased. "The census reports indicate that in 1909 the total amount of farm wages paid to farm laborers was \$651,611,287. This is almost doube the cost in 1899, which was \$357. 301,930. Considerable increases in this item of expenses are indicated since 1909.

"The smallest average cash income per farm and per capita was obtained in Kentucky, Tennessee, Ala-bama, Mississipi, Louisiana, Texas, Oklahoma and Arkansas, where the labor of relatively large number of adults and children is required to produce the crop. The largest averave cash income per farm and per apita is shown in the North Central vest division, including the state of Mennesota, Iowa, Missouri, North and South Dakota, Kansas and Ne-

PASTOR REVIEWS PROGRESS

OF PASSING CHURCH YEAR In a special New Year's sermon Sunday evening at the Franklin M. E. church, the pastor, Rev. Mr. Kittel, reviewed the progress of the church during the year, 1913, and pointed out the things the members must do to repay the Lord, in part, for past prosperity and past blessings. He reminded his hearers of .86 1.13 1.41 1.68 the motto he laid down one year ago: "Every member of the church a saved member, saved so that he knows it and saved so that he cantell others about it." This motto, he said, had been well lived up to, although much improvement is yet possible. Remembering that Lord is both merciful and righteous, we should, as the year closed, call on the name of the Master, see that our cup of salvation is full to fight than ever in the army of the

Peking, December 30 .- Professor Eb Spink was a business visitor Frank J. Goodnow, formerly of Col-University, of New York now advisor to the Chinese Government, has taken a very definite stand in opposition to the draft of the constitution proposed by the Parliament which has just been invalidated by the expulsion of four hundred members belonging to the radical Kwo Ming Tang party.

Professor Goodnow came to Chi-

na six months ago. It did not take him long to reach the conclusion that ample powers should be placed in the hands of the President and his Cabinet, and this opinion has been justified and supported, he says, by his subsequent observations. His report on the proposed constitution has been made public together with a number of other op inions supporting the position President Yuan Shih Kai, as against Parliament. It is a lengthy document and throws much light on the the President, which today is dividing the men who rule China. Some Charles Beerup of Franklin was of the more important paragraphs

"China is a country of great de versity of conditions, due to climatic differences which differentiate as North from a South China; to geographical features, and to the absence of good means of communication. It is a country which has had James Tribble of Franklin was little if any experience in popular self-government, so far as concerns the solution of the larger problems Thomas Young of Literberry was of its national life. Party organic aztion has not developed as yet any great strength, certainly not such Dr. J. M. Swope of Arenzville was strength as may be relied on to insure the presence of two great part ties. The present constitutional fintakes from the President alally most all power of dissolution, and

thereby deprives him of his most effective weapon of defense against a hostile legislature, which itself may not be representative of the people. "The experience of the immedite

past further would seem to show that distrust of the advisability of cabinet government for China is justifled. The ministries have been so unstable that little if any progress has been made in the solution of many most important and pressing problems. A large part of the trouble is to be found in the attempt the Murrayville visitors in the city of the council, and later the assem bly, to exercise too strict control ov er the action of the executive.

"What China would seem to need for the present at any rate, is strong executive who should be per professional visitor in the city mitted, subject to a general control to be exercised by the tegislature Miss Myrtle Schlagel of Neelyville over the policy to be followed. to pursue that policy unhampered by vexatious restrictions.

"It appears to be generally believ ed that foreign loans will soon have to be made. It can hardly be hoped that the banks which may be expected to undertake the placing of these loans will be willing to advance large sums of money under a among the business visitors in the form of government which makes it impossible to determine with reas-"Doc" Butler of Woodson was onable certainty who will, even in a number of children of among the business visitors in the a few months, have the disposit-

ion of the proceeds of those loans Professor Goodnow then sets forth that a large amount of constructive legislation confronts China, and says this work could be greatly exainst parliamentary procedure. With John Pate is moving from Routt regard to the committee which Parliament proposed to leave in Peking during the months that it is not in session, Professor Goodnow says:

'This body is quite a new thing in constitutional government. Its establishment is apparently due to the desire not to trust the President with the exercise of political power. But this particular example of distrust of the executive is legislative control of executive run wild. The farmers of the constitution are evidently unwilling to trust the Prime Minister and the ministers in the case of a vote of want of confidence with the carrying on of the government during the period of adjournment. That the presence of the committee (in Peking) will greatly ernment is greatly to be feared.

"It is always well to remember Miss Lucile Olinger of Franklin in constitution making that it is impossible to guard against every posstroying government efficiency. Like most human relations, political relege will eave today for a visit lations can be conducted satisfaconable mutual confidence.

"Like the Committee of the Natvisitor in the city Monday from ional Assembly, the election of auditors of accounts by the Senate is also almost without a precedent. Miss Effie Johnston, who has been | That there should be auditors who are in a large measure independent borne of Grove street, has returned of the government is unquestionably true. Such auditors are provid-Mr. and Mrs. Anderson Escorse ed in almost all modern countries. judges. That is, they are appointed by the executive, and usually have a tenure of office which makes it miss them. In regard to the President's re-

quest for permission to put his case Professor Goodnow gave the government the following advice: That the recognition of such a

Christmas passed off in the best of style. The children of both Sunday schools were remembered with presents and sweets of all kinds; while the older ones were not forgotten. Santa Claus certainly did his full duty in Literberry. Several fine birds were sacrificed on the altar of cuisine in and around the Mr. and Mrs. Lee Scribner slaughtered and roasted a fine turkey on Friday and invited Mr. and Mrs. Wall Mason and family, Mr. and Mrs. Warren Daniels and Walter and Isaac Reece of Jacksonville, to assist in picking his bones. It is needless to say they did the work to

perfection. Mr. and Mrs. Willard Young also butchered a fine bird and their friends did their best to dispose of his carcass; another good piece of work. But about the most interesting time we heard of was down at the palatial home of Mr. and Mrs. C. P. Henderson, on Richman's boulevard. This was the 40th fedding anniversary of C. P. and his good wife and they decided to have a little extra dinner. Bumped Up Against the Real Thing

"I think I have bumped up against the real thing in Chamberlain's Tablets," writes D. R. Thomas, o' Tidoute, Pa. "They do the work and cause no unpleasant reaction." In cases of constipation when pills and saline cathartics are used, their use is often followed by constipation as they take so much water out of the system. On the other hand the effect of Chamberlain's Tablets is so agreeable and so natural that you do not realize that it has been induced by a medicine, and no reaction follows their use.
